

EI PULLEY ACE

BELT & SHEAVE ALIGNMENT TOOL

- Laser Power Class II
 - 2 “AAA” Batteries powered.
Up to 10 hours of operating time.
 - Level Vial: 40 Arc Min
 - Beam Spread: 60” @ 3 ft
 - Line Width: 1/16” @ 30 in
 - Accuracy: 0.070” or over 7 times more than industry standards
 - Dimension: 1.75” x 6.75” x 0.625” (144 x 171 x 15 mm)
-
- Retro-reflective
 - Adjustable over 1”
 - Dimension: 1 1/4” dia. x 1” Length
 - High Grad Hard Anodized Aluminum
 - Magnets: Nickel Plated Rare Earth
 - IP67 Rated

ALIGN SHEAVES AND PULLEYS WITH A LASER BEAM

FEATURES

- Decrease vibration on any Pulley-Sheave System
- Minimize belt and motor bearing wear
- Compact size. Easy to use on small diameter sheaves
- Faster set ups
- Ultra-Green Laser technology. 400% more visible than red beam lasers
- Laser level. Check the height and flatness of motor and gear box mounting plates
- Aligns belts, pulleys, sheaves, sprockets, gear trains, rollers, platforms, conveyors, and other plant equipment
